Ankit Raj

has successfully completed the online Professional Certificate

Microsoft AI Product Manager

Successful completion of the Lead Enterprise Product Development with Copilot program. This intensive program covered market research, cloud strategy, and UX/UI design, utilizing Azure, Power BI, and Copilot.Completers demonstrated the ability to manage secure, compliant, and scalable software products from concept to launch, including go-to-market strategies and post-launch analysis. They have effectively applied AI and cloud capabilities, analyzed data, and collaborated efficiently with teams. The program also involved developing roadmaps, prioritizing features, and managing product lifecycles, ensuring security and compliance. Through practical experience gained in projects and case studies, the holder is now well-prepared for real world applications

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
